

Toward the achievement of our goals

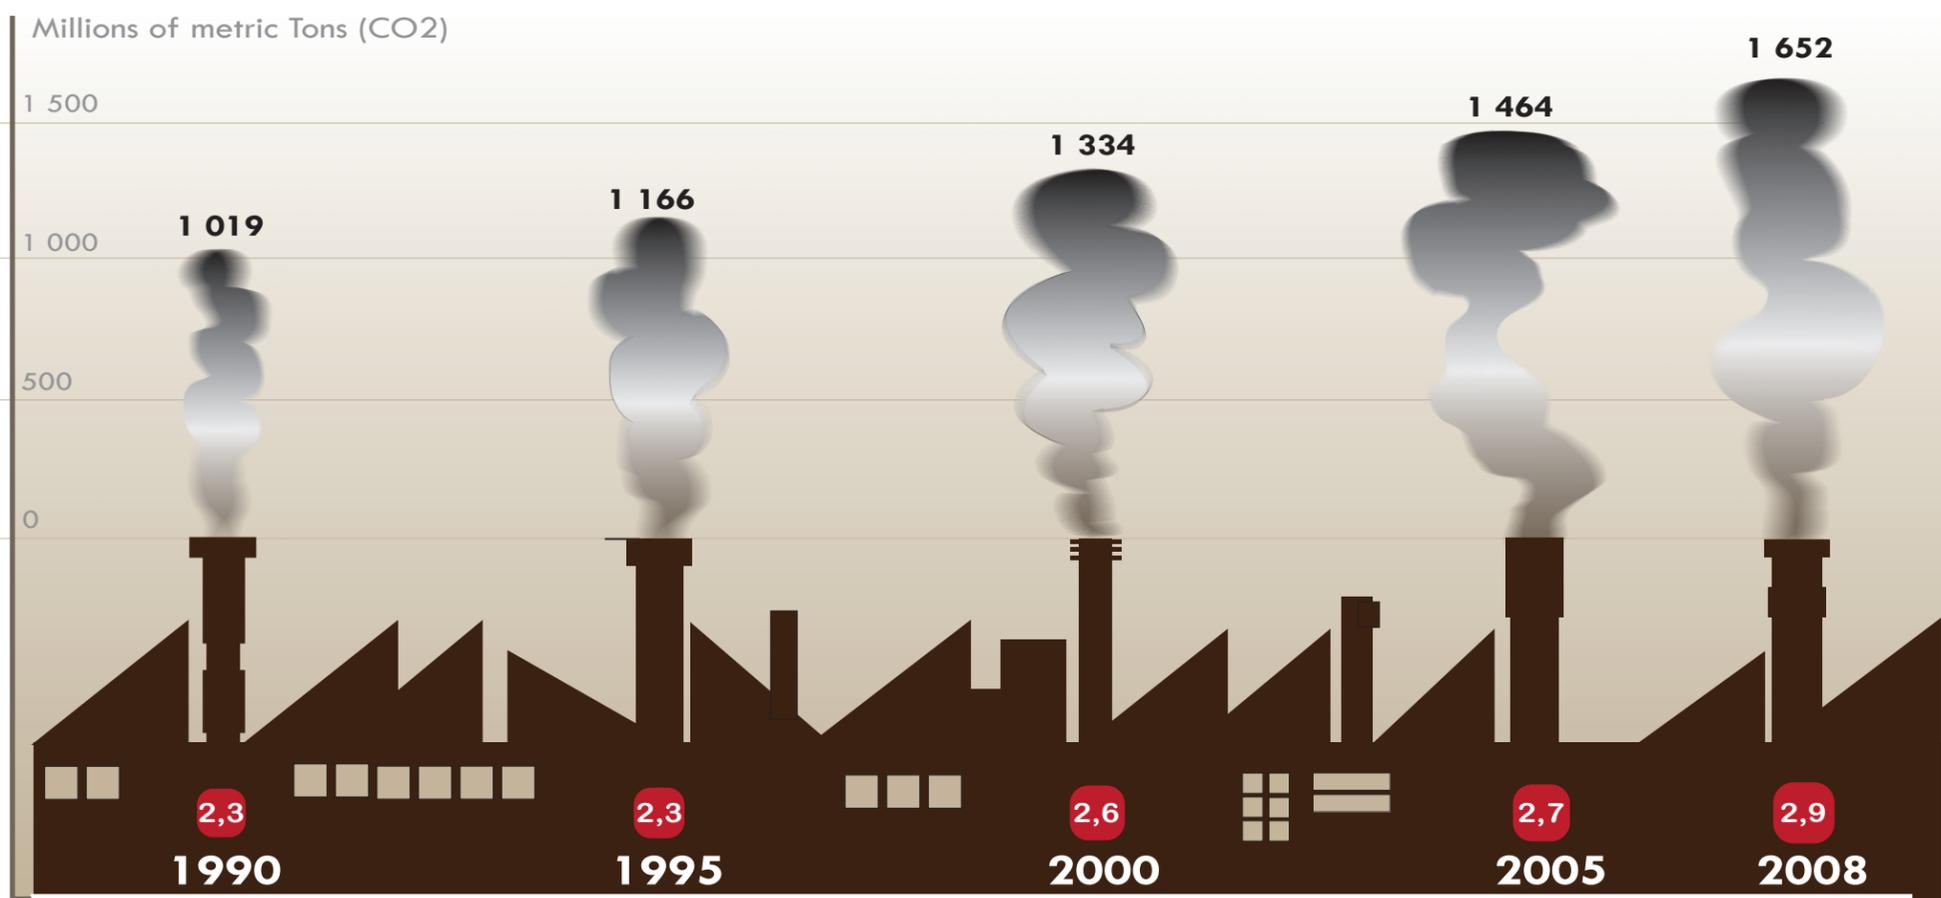

1990 ————— 2012 ————— 2015

DID YOU KNOW THAT...?

Latin America and the Caribbean emits

3 150 Tons of CO2 per minute.

The effects of the emissions are more severe when considering the region has **lost 93 million ha of forest** over the last decade.

Latin America and the Caribbean, total carbon dioxide (CO2) emissions (millions of metric Tons)

Per capita emissions (Tons).

CO2 emissions; 2008. Source: CEPALSTAT, on the basis of the MDG database, United Nations Statistics Division.

GOAL 7: Ensure environmental sustainability.

Target 7.A: Integrate the principles of sustainable development into country policies and programmes and reverse the loss of environmental resources.
